PROFESSIONAL SUMMARY

Full Stack Developer with experience in Java, Spring Boot, Angular, React.js, Node.js, MongoDB, and enterprise application development at Zebra Technologies. Skilled in REST APIs, authentication, authorization, RBAC, session management, and AI-assisted development using GitHub Copilot, Cursor AI, and ChatGPT. Strong foundation in Data Structures & Algorithms, OOP, DBMS, Operating Systems, and Computer Networks.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript (ES6+), TypeScript, C++, C
Backend: Spring Boot, Spring Framework, Node.js, Express.js, REST APIs, JWT, Swagger
Frontend: Angular, Angular Material, React.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Bootstrap
Databases: MongoDB, Mongoose, MySQL
Tools: Git, GitHub, Jira, VS Code, IntelliJ IDEA
AI Tools: GitHub Copilot, Cursor AI, ChatGPT, Claude AI
Core CS: Data Structures & Algorithms, OOPs, DBMS, Operating Systems, Computer Networks

PROFESSIONAL EXPERIENCE

Software Solutions Intern Jan 2026 – July 2026
Zebra Technologies Pune, Maharashtra

- Contributed to **Kernel Core**, Zebra's centralized authentication and authorization platform, resolving tickets related to multi-protocol auth flows (JWT, SAML, OIDC, LDAP), token lifecycle management, profile-based RBAC, and multi-tenant session handling.
- Contributed to **Workcloud MyWork**, an enterprise task management inbox, resolving defects in store walk API error handling, notification layout, action dropdown components, feed management, and landing page session flows.
- Contributed to **TM Creator**, a project lifecycle management platform, fixing backend logic in project copy/translation workflows, overdue status checks, CKEditor track-changes behavior, and PDF export analysis using Spring Boot, Java 21, and MongoDB with hexagonal architecture.
- Fixed frontend UI bugs and implemented enhancements using Angular, Angular Material, TypeScript, and Bootstrap across multiple feature modules including notifications, dashboards, and dialog components.
- Leveraged GitHub Copilot, Cursor AI, and ChatGPT for root-cause analysis, debugging, code optimization, and accelerating test case development.

PROJECTS

Learning Management System GitHub

- Built a full-stack Learning Management System (LMS) using React.js, Node.js, Express.js, and MongoDB Atlas, designing RESTful APIs with JWT-based authentication and role-based access control for secure user management.
- Integrated Stripe for course payments and Cloudinary for media storage, while developing a responsive, modern UI using React.js, RTK Query, Tailwind CSS, and ShadCN UI to enhance the user experience.

Food Delivery Platform GitHub

- Developed a MERN-stack Food Delivery Platform with JWT-based authentication, implementing shopping cart, checkout, order placement, and order management features for a seamless user experience.
- Integrated the Stripe payment gateway and built an admin dashboard for operational management, while improving application performance through reusable React components and efficient state management.

EDUCATION

Bachelor of Technology (Computer Science & Engineering) Aug 2022 – May 2026
Shri Guru Gobind Singh Institute of Engineering and Technology, Nanded CGPA: 8.4

Class XII – 95.8% 2022
Shiksha Niketan Senior Secondary School, Jammu

Class X – 95.8% 2020
Shiksha Niketan Senior Secondary School, Jammu

CODING PROFILES & ACHIEVEMENTS

- Solved 250+ DSA problems on GeeksforGeeks and 100+ problems on LeetCode.
- Regular participant in coding contests and competitive programming challenges.
- Strong understanding of algorithm design, complexity analysis, and software engineering principles.
